Second announcement

15th INTERNATIONAL CONGRESS

OF THE ASSOCIATION OF GYNECOLOGISTS AND OBSTETRICIANS OF SERBIA,
MONTENEGRO AND REPUBLIC OF SRPSKA

Dear colleagues and friends,

We are honored to invite you and welcome you with great pleasure to the 15th International Congress of the Association of Gynecologists and Obstetricians of Serbia, Montenegro and Republic of Srpska (UGOSCGRS). Congress will be held in Belgrade on December 7-9th, 2017, under the patronage of the Ministry of health of the Republic Serbia and Serbian Academy of Science and Art. Congress organization is also supported by the School of Medicine, University of Belgrade.

Congress is a result of the joint activities of the Gynecology and Obstetrics Section of the Serbian Medical Society, Association of Gynecologists and Obstetricians of Montenegro and Association of Gynecologists and Obstetricians of Republic of Srpska.

Since our 18th International Symposium held in Bečići (Montenegro) last year, we have engaged significant professional, scientific and organizing capacities with aim to maintain continuity of successful meetings and to confirm reputation of the UGOSCGRS as leading, respectful, regionally and internationally recognized society, whose fundamental dedication is to continuously and intensively work on keeping and improving gynecology and obstetrics as profession.

Therefore, the Scientific Program focuses, not only on ordinary problems of gynecological-obstetrical profession, but also on up-to-date achievements in prevention, diagnostic and therapy of numerous and complex problems of this fast growing clinical and research discipline.

Hotel Metropol Palace
Belgrade, 7-9 December 2017

www.ugoscgrs.rs

The concept of this Congress reflects efforts to provide the forum for meetings, learning and exchange of experience and knowledge between numerous respectful and recognized gynecologists and attendees, which will create the opportunity to improve the knowledge and skills, and also to question practice, attitudes and thoughts.

During three days, the Congress will host almost 90 invited lecturers, not only from the Association's member countries, but also from the region and Europe – Croatia, Slovenia, Macedonia, Hungary, Romania, Italy, Austria, Germany, Netherlands, France, Czech Republic, Cyprus, Russia, Israel, China, India, and many other countries.

All invited speakers have chosen relevant topics from areas in which their professional and scientific capacity reached the highest affirmation.

The Congress Program includes over 20 sessions, free communications, video presentations, round tables and commercial symposia.

Crucial questions in gynecology and reproductive medicine will be presented and analyzed in Keynote Sessions by the prestigious international experts such as Prof. Gian Carlo Di Renzo, Prof. Joseph Schenker, Prof. Giuseppe Benagiano, Prof. Jacky Nizard, Prof. Wolfgang Holzgreve, but also by the most respectful national and regional experts, academicians and researchers.

Regarding the Gynecological Oncology, Congress attendees will have the opportunity to hear about novel hypothesis of pathogenesis of gynecological malignancies, as well as prevention and treatment of early stages of gynecologic cancer according to the recommendations issued by the relevant societies. Special attention will be given to the problem of selection of patients and treatment options for fertility sparing surgery, radical surgical procedures, different operative approaches and novel modalities of biological and immunological therapy in oncology.

Perinatal medicine sessions are dedicated to the permanently relevant problems of endocrine disorders in pregnancy, multiple pregnancies, congenital anomalies, hematologic disorders, hypertension disease in pregnancy and its complications, but also to the numerous problems and dilemmas driven by the progress in basic and clinical disciplines,

15th INTERNATIONAL CONGRESS

OF THE ASSOCIATION OF GYNECOLOGISTS AND OBSTETRICIANS OF SERBIA,
MONTENEGRO AND REPUBLIC OF SRPSKA

and technological improvements (fetal programming, ultrasonography and genetics associations, cord-blood stem cells technology, non-invasive prenatal testing, malignancies in pregnancy).

Assisted reproductive technologies and the most delicate aspects of human reproduction have been brought to light from fundamental genetic mechanisms, over endocrine aspects to their implications on assisted fertilization techniques, considering also different ethical, technological and social dilemmas of the infertility treatment.

Special session is dedicated to the problem of “pelvic floor aging”, pelvic organs prolapse and their treatment. One of the most frequent problems female population of reproductive age – myomas – are considered as a special entity, regarding not only different approaches of surgical treatment, but also conservative options.

Laparoscopic surgery, the gold standard in diagnostic and treatment of growing number of female reproductive organs disorders (infertility, emergency conditions, oncology) have a special place in Congress Program.

Remarkable contribution to the Congress legitimacy, as the exceptional professional and scientific meeting, is given by the participation of the experts from neonatology, obstetrics and anesthesiology.

In respect of 15th International Congress of the UGOSCGRS as a meeting in which speakers, organizers and participants have invested great knowledge, work and effort, we believe that it will result in significant contribution and stimulus for further research and development, as for the clinical practice. We are truly thankful to numerous institutions and companies without whom it would not be possible to organize this Congress and who recognized its unique professional, scientific, educational and social significance for our profession.

Welcome to Belgrade, welcome to Serbia!

Prof. Aleksandar Stefanović
President of the UGOSCGRS
