XV MEĐUNARODNI KONGRES

UDRUŽENJA GINEKOLOGA I OPSTETRIČARA SRBIJE, CRNE GORE I REPUBLIKE SRPSKE

Dragi prijatelji i kolege,

Počastvovani smo da sa velikim zadovoljstvom možemo da Vas pozovemo i poželimo dobrodošlicu na XV Međunarodni kongres Udruženja ginekologa i opstetričara Srbije, Crne Gore i Republike Srpske (UGOSCGRS). Kongres će biti održan u Beogradu od 7-9. decembra 2017, pod pokroviteljstvom Ministarstva zdravlja Republike Srbije i Srpske akademije nauka i umetnosti, a organizaciju je podržao i Medicinski fakultet Univerziteta u Beogradu.

Kongres je rezultat zajedničkih aktivnosti Ginekološko-akušerske sekcije Srpskog lekarskog društva, Udruženja ginekologa i akušera Crne Gore i Udruženja ginekologa i opstetričara Republike Srpske.

Tokom proteklih godinu dana, od našeg XVIII Simpozijuma održanog u Bečićima, angažovali smo značajne stručne, naučne i organizacione kapacitete da održimo kontinuitet uspešnih sastanaka i potvrdimo ugled UGOSCGRS kao vodećeg, uglednog, regionalno poštovanog i međunarodno priznatog udruženja, čije je osnovno opredeljenje da stalno i intenzivno radi na očuvanju i unapređenju ginekološko-akušerske struke.

U skladu sa tim, naučni program Kongresa fokusiran je, ne samo na svakodnevne probleme ginekološko-akušerske struke, već i na najnovija dostignuća u oblasti prevencije, dijagnostike i terapije sve brojnijih i kompleksnijih problema brzonapredujuće medicinske struke i nauke.

Koncept Kongresa izraz je napora da se na jednom mestu sretnu, upoznaju, uče zajedno i razmene iskustva i saznanja brojni poznati i priznati ginekolozi i akušeri, sa još brojnijim

učesnicima, čime bi se ostvarila prilika da unaprede svoja znanja i veštine, ali i provere svoju praksu, stavove i razmišljanja.

Ovogodišnji XVMeđunarodni kongres UGOSCGRS tokom tri dana okuplja skoro 90 predavača, ne samo iz zemalja članica Udruženja, već i iz brojnih susednih i Evropskih zemalja - Hrvatska, Slovenija, Makedonija, Mađarska, Rumunija, Italija, Austrija, Nemačka, Holandija, Francuska, Češka, Kipar, ali i učesnici iz Rusije, Izraela, Kine, Indije i mnogih drugih.

Svi predavači i učesnici su po sopstvenom izboru izabrali teme koje smatraju relevantnim za ovaj skup i to iz oblasti u kojoj su na najbolji način afirmisali svoj zavidan stručni i naučni kapacitet.

Program Kongresa uključuje preko 20 sesija, slobodna saopštenja, video prezentacije, okrugle stolove, kao i sponzorisane simpozijume.

Krucijalna pitanja ginekologije i reproduktivne medicine biće prezentovana i analizirana u Specijalnim sesijama od strane najprestižnijih stranih autora kao što su Prof. Gian Carlo Di Renzo, Prof. Joseph Schenker, Prof. Guiseppe Beagiano, Prof. Jacky Nizart, Prof. Wolfgang Holzgreve, kao i najuglednijih domaćih stručnjaka, akademika i istraživača.

Učesnici Kongresa imaju priliku da se u oblasti ginekološke onkologije upoznaju sa najnovijim postavkama patogeneze malignih oboljenja genitalnih organa, prevencije i lečenja ranih stadijuma istih bolesti, a prema aktuelnim preporukama svetskih udruženja. Posebna pažnja posvećena je problemima selekcije i lečenja pacijenata u oblasti poštedne ("fertility sparing") hirurgije, radikalnim hirurškim procedurama, različitim operativnim pristupima, kao i novim modalitetima biološke i imunološke terapije u onkologiji.

Perinatološke sesije posvećene su uvek prisutnim i aktuelnim problemima endokrinoloških oboljenja u trudnoći, višestrukih trudnoća, kongenitalnih anomalija, hematoloških oboljenja, hipertenzivne bolesti u trudnoći i njenih komplikacija, ali i brojnim problemima i dilemama koje donosi napredak bazičnih, kliničkih disciplina, ali i tehnološki napredak (fetalno programiranje, povezivanje ultrazvuka i genetike, primena matičnih ćelija iz krvi pupčanika, neinvazivno prenatalno testiranje, trudnoća i maligna oboljenja).

XV MEĐUNARODNI KONGRES

UDRUŽENJA GINEKOLOGA I OPSTETRIČARA SRBIJE, CRNE GORE I REPUBLIKE SRPSKE

Asistirane reproduktivne tehnologije i najdelikatniji aspekti humane reprodukcije osvetljeni su od fundamentalnih genetskih mehanizama, preko endokrinoloških aspekata i njihove primene u postupcima potpomognute oplodnje, a razmotrene su i razne etičke, tehnološke i socijalne dileme u terapiji infertiliteta.

Posebna sesija posvećena je problemima tzv. "starenja karličnog dna", poremećajima statike genitalnih organa i njihovom lečenju, dok je kao posebna celina razmatran jedan od najčešćih problema ženske populacije reproduktivnog doba - mioma, kako u smislu različitih pristupa hirurškog lečenja, tako i medikamentoznog lečenja.

Laparoskopska hirurgija, koja je danas "zlatni standard" u dijagnostici i terapiji sve većeg broja oboljenja ženskih genitalnih organa (infertilitet, urgentna stanja, onkologija) zauzima značajno mesto u programu Kongresa.

Izvanredan doprinos legitimisanju Kongresa kao izuzetnog stručno-naučnog skupa daje učešće eksperata iz oblasti neonatologije, opstetricije i anesteziologije sa reanimacijom.

Sagledavajući XV Međunarodni kongres UGOSCGRS kao skup u čije su ostvarenje autori i organizatori, kao i svi učesnici investirali puno znanja, rada i truda, verujemo da će njihovi rezultati biti značajan prilog i podsticaj za dalje istraživanje i naučnu obradu, ali i svakodnevnu praksu.

Posebnu zahvalnost dugujemo brojnim institucijama i kompanijama, bez čijeg učešća ne bi bilo moguće realizovati ovaj Kongres, a koji su prepoznali jedinstveni stručni, naučni, obrazovni i sveukupni društveni značaj naše struke.

Dobrodošli u Beograd, dobrodošli u Srbiju!
